

INNOVATIVE HALL CONSTRUCTION

Smart. Individual. Sustainable.

Your partner from design concept through
to implementation

**YOUR HALL, MADE BY
US — WITH PASSION,
EXPERTISE AND
PRACTICAL APPROACH.**

Brüninghoff GmbH & Co. KG

HIGHLY EFFICIENT IN PRACTICAL IMPLEMENTATION

- > **planning, production and implementation** of visionary, sustainable building concepts for your hall construction project – also using hybrid construction methods
- > **highly efficient** with more than **50 years of experience** and more than **700 employees**
- > **everything from a single source** – from planning to production, through to final installation
- > **transparent, resource-saving and fast** thanks to state-of-the-art production methods and efficient prefabrication

Our services at a glance

PLANNING. MANUFACTURING. BUILDING.

Our state-of-the-art sustainable hall concepts are all ESG-compliant:

- We are committed to using resource-saving materials and to optimising energy efficiency. Reducing CO₂ is our affair of the heart.
- ESG-compliant projects pave the way to sustainable financing options and make them future proof.

Our services at a glance

SMART SOLUTIONS — QUICKLY IMPLEMENTED

Your construction project in safe hands – from planning to completion.

- fast-track to completion: we make prefabricated construction elements so we can build your logistics and production halls efficiently and on time
- maximum flexibility: our modular building concepts are flexible and can therefore be adapted and extended to maximise the potential of your building

Your hall. Our expertise.

OVERVIEW OF BENEFITS

With more than 50 years of experience, we are the best partner for hybrid construction methods and innovative solutions. When planning, manufacturing and implementing production and logistics halls we focus on developing sustainable and resource-saving building concepts.

- > specialist for customised visionary building solutions
- > contact partner for sustainable, flexible and efficient production and logistics halls
- > expert for all standard certification systems such as DGNB, LEED and BREEAM

About Brüninghoff Group

PLANNING. MANUFACTURING. BUILDING.

Six companies operate as part of Brüninghoff Group. For more than 50 years Brüninghoff Group has been perfecting its craft in industrial prefabricated construction using combinations of timber, concrete, steel and aluminium. 700 employees carry out planning, production and construction activities and also provide building asset services.

We are the driving force behind innovations and develop pioneering technology for sustainable resource-efficient component, building and energy solutions. We see the building within a life cycle, provide all services from a single source and also reuse the products we develop.
